

Could you support those caring for a loved one?

Weston Hospicecare is looking for volunteer Community Companions. A Community Companion is a source of support for someone who is caring for someone. If you have had experience caring for a loved one this could be the role for you.

Could you

- Be a listening ear
- Help make practical plans
- Liaise with Hospice services
- Help to organise a support network
- Help someone to work out their needs
- Point out support services that could be accessed

If you are interested in joining Weston Hospicecare's volunteer Community Companions team, please contact Ditch Townsend on
